DIRECTORS' REPORT

DEAR SHAREHOLDERS,

Your Directors have the pleasure of presenting their 85th Annual Report together with the Audited Financial Statements for the period ended 31st March 2025.

GENERAL:

All India's sugar production for the 2024-25 season is expected to reach 261-262 lakh tonnes, compared to the previous year's 320 lakh tonnes. This is due to a combination of factors, including lower sugarcane yields in key producing states and the diversion of sugar for ethanol production. The Government of India in order to control the falling sugar prices has continued the release mechanism for the sale of Sugar and has also maintained the minimum selling price at Rs.31/- per kg. The current market price is more than MSP.

Our total crushing of sugar cane for the company including both units for the year ending on March 31st 2025 was 19.81 Lakh MT and the total bagging was 12.84 Lakh quintals of sugar. The Company has produced 942.24 Lakh BLS Ethanol during this year.

MANAGEMENT DISCUSSION AND ANALYSIS

Global Development:

The global sugar balance for the 2024-25 season highlighting a significant shift in the global supply-demand outlook. According to the latest update, ISO forecasts a substantial global sugar deficit of 5.466 million tonnes — an increase of 0.585 million tonnes since the February estimate. This marks the largest deficit in nine years, tightening global sugar supplies.

Global sugar production for the 2024-25 season projected at 174.795 million tonnes, representing a decline of 6.469 million tonnes compared to the previous season.

Industrial Structure and Development:

Overall sugarcane production in 2024-25 is estimated to be at 439.9 MMT. A general decreasing trend in sugarcane production has been witnessed across the past three years. Sugarcane production in current year has reached the 2021-22 level of production.

India is the second largest producer of sugarcane and largest consumer of sugar in the world. India produces 19 per cent of the world's sugar while contributing 16 per cent to world sugar consumption. Domestic sugarcane production is expected to decline from 453.16 MMT in 2023- 24 to 439.9 MMT in 2024-25. While domestic sugar production is expected to decline to 33.3 MMT in SY 2024-25 from 34 MMT in SY 2023-24. Post consideration of sugar diversion towards ethanol production, net sugar production is expected to stand at 29.3 MMT. The area sown under sugarcane has seen a marginal increase. Which stands in contrast to the trend of decrease in sugarcane production.

Sugar production is expected to decrease from 34 MMT in SY 2023-24 to 33.3 MMT in SY 2024-25. Diversion under Ethanol Blending Programme (EBP) is expected to increase from 2 MMT to 4 MMT in SY 2024-25. Sufficient availability of sugar will ensure a comfortable stock for domestic consumption and increase stocks.

Ethanol Blending Programme (EBP)

Molasses is derived from manufacturing sugar. It is a byproduct of sugarcane. Molasses is used to manufacture ethanol; ethanol is used in the automotive industry as a fuel additive and used to produce alcoholic beverages in spirit industry.

A significant increase in ethanol supply for ESY 2024-25 can be seen compared to ESY 2023-24. Increased blending targets from 13.8 per cent to 20 per cent are the prime reason. Blending will be further supported by the recent government decision to lift cap on diversion of sugarcane (and related byproducts) towards ethanol production.

In line with the increasing importance of sugar in the energy sector, the premier sugar industrial association - Indian Sugar Mill Association has renamed itself to Indian Sugar and Bio energy Manufacturing Association in Dec-2023

Sugar Export:

Exports, which showed an increasing trend till 2022-23, have decreased substantially. In the current FY, 1.8 million tonnes of sugar have been exported, earning 1.1 billion USD. The reason for the drop in exports post FY 2023-24 was the exports restrictions put in place in May-2022. These restrictions have been periodically extended and are the primary reason for low sugar exports.

Trade policy for sugar in the past year has not seen any major changes. In January- 2024, the government imposed 50 per cent export duty on molasses. This is done to ensure sufficient supply of molasses for ethanol blending.

Government Initiatives impacting the Sugar Industry

The sugar industry is impacted by several government initiatives both directly and indirectly. Some initiatives are:

- a. **Sugarcane variety:** The Government released four high yielding climate resilient sugarcane varieties on 11th August 2024. Among the four-sugarcane variety: Karan 17 (Co 17018) with yield of 91.5 tonnes/ha, IKSHU-16 (CoLK 16202) with yield of 93.2 tonnes/ha has been recommended for cultivation in states of Uttar Pradesh, Haryana, Punjab, Rajasthan, and Uttarakhand. If adopted, these sugarcane variety will help increase overall yield and production.
- b. **Efficiency through Farm mechanization:** Farm mechanization is crucial for agriculture as it helps in reducing cost of cultivation. In sugarcane cultivation, human labour constitutes 52.5 per cent of the total cost of production. Scheme such as Sub-Mission on Agricultural Mechanization (SNAM), will have a direct impact on the reducing the overall human cost while further increase the profitability of the sector.
- c. **Global Biofuel Alliance:** In September-2023, Government of India launched the Global Biofuel Alliance to promote the development and adoption of sustainable fuels¹⁰. Recently, on the sideline of G20-Brazil, India and Brazil agreed to cooperate on technology exchange, share regulatory & policy experience and leverage ethanol production from all sources. This will benefit the sugar industry both in India and world by developing a framework for adoption of ethanol. It will also help in dealing with the issue of climate change while providing income security and promoting just transition.
- d. **International Sugar Organisation:** In 2023, India became the Chair of International Sugar Organisation for 2024. The Chair will provide India a platform to bring together member countries to adopt sustainable practices in sugarcane cultivation, promote ethanol production and utilisation of by-products. Technical collaboration by sharing latest technologies and best practice is being carried out by National Sugar Institute-Kanpur with member countries – Indonesia, Nigeria, Egypt.
- e. **Improving Financial Health of Sugar Mills:** Government has proposed the formulation of a comprehensive five-year plan to boost the financial capacity of sugar mills, with a target funding to 25,000 crores spread across five years. This will help improve financial health and support long-term development of sugar mills.

Challenges

- a. **Pricing:** MSP has not been revised since 2019. Industry is urging the government to revise the MSP to ₹ 39 per kg. Further Industry, is also requesting the price of ethanol derived from sugar byproducts to be revised upward.
- b. **Farm Labour:** Human Labour constitutes 52 per cent of the total sugarcane cultivation cost. Any reduction will directly impact the total cost of cultivation. Increased farm mechanization may help reduce the cost of cultivation.
- c. **Water Requirement:** Sugarcane is a highly water intensive crop and has been the prime reason

for groundwater depletion in North and Northwestern states. Increase in sugar production and adoption of high yield varieties may further exacerbate the issue.

- d. **Industrial Alcohol:** In October 2024, Supreme Court upheld States power to regulate industrial alcohol. This may provide state government the ability to tax industrial alcohol.

Segment-wise Performance: Sugar:

During the Current Year the Company has crushed 19.81 Lakh MT of sugar cane from both Ugar and Jewargi unit (as against 20.87 Lakh MT during the previous year) and produced 12.84 Lakh QTLs of sugar (as against 15.11 Lakhs QTLs of sugar during the previous year) at the recovery of 10.75% and 8.80% respectively for Ugar and Jewargi unit.

Industrial and Potable Alcohol:

The company has produced 942.24 Lakh BLS of Industrial and Potable Alcohol during the year (against the last year's production of 754.87 Lakh BLS).

Co-generation (Ugar & Jewargi):

We have generated 1471.30 Lakh kW power during the year at Ugar and Jewargi Unit (as against 1,658.49 Lakh during the previous year) and have exported 508.56 Lakh KW of power during the year (as against 748.83 Lakh KW during the previous year). We have supplied power to the exchange through PTC India Ltd.

Adequacy of Internal Control:

The Company has a proper and adequate system of internal control to ensure that all assets are safeguarded and protected. The Internal Auditor submits a report covering almost all the areas of operations.

Human Resources Development:

The Company provides regular training and all-round exposure to the employees and staff. The Company has a well-equipped township with recreational facilities such as a clubhouse, playground, swimming pool, gymnasium, etc. The Company also operates a Cooperative Society, Hospital, School, and College for the benefit of the workers and the general public.

Workforce related information is available in BRSR Report.

INDEPENDENT AUDITORS' REPORT

To the Members of
The Ugar Sugar works Limited
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of The Ugar Sugar Works Ltd. ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, the Loss and total comprehensive Income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters. For each matter below, our description of how our Audit addressed the matter is provided in that context. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	How the matter was addressed in the audit
1	<p>Contingent Liability</p> <p>The Company is involved in direct and indirect tax litigations of Rs. 519.32 Lakhs. The Company has also provided corporate guarantee of Rs. 6,000 Lakhs to the Banks for Harvesting and Transportation Loan.</p> <p>Whether the liability is recognized or disclosed as a contingent liability is inherently judgmental and dependent on assumptions and assessment. We placed specific focus on the judgements in respect to these demands against the Company. Determining the amount, if any, to be recognized or disclosed in the financial statements, is inherently subjective. Therefore, it is considered to be a key audit matter. (Refer Note D (1) to Financial Statements)</p>	<p>Our procedures included, but were not limited to, the following:</p> <ul style="list-style-type: none"> • Obtained an understanding from the management with respect to process and controls followed by the Company for identification and monitoring of significant developments in relation to the litigations, including completeness thereof. • Obtained the list of litigations from the management and reviewed their assessment of the likelihood of outflow of economic resources being probable, possible or remote in respect of the litigations. • Assessed management's discussions held with their legal consultants and understanding precedents in similar cases. • We verified the appropriateness of the accounting policies, disclosures related to provisions for sub judice matters and details of contingent liabilities in note D(1) in the financial statements
2	<p>Valuation of Sugar Inventory</p> <p>Manufacturing of Sugar is complex process which leads to generation of certain joint products and by products which are used for generation of other products, sold in the market as well as used as input in the manufacturing of Sugar. The valuation requires use of management's judgements and assumptions regarding elimination of inter-divisional profits, allocation of costs of production between joint products based on their relative sales value and net realisable value (NRV) of different products which is further dependent upon the</p>	<p>We applied the following audit procedures in this area, among others, to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> • Evaluated the accounting policy of sugar inventory in terms of relevant accounting standard; • Tested the design, implementation and operating effectiveness of the Company's key controls over computation of cost of sugar inventory for each sugar mill; • Assessed the appropriateness of the principles used in the valuation of Inventory and analysed the reasonableness of significant

We assessed the adequacy of the method used, relevance and reliability of data and the formula applied for determining the cost of sugar inventory. This included the basis of allocation of cost to by-products based on Net Realizable Value (NRV). In addition, we assessed the impact of notifications/ orders of the Government Authorities on cost of sugar inventory. For cost of conversion, we assessed the impact of variability in seasonal factors including number of Sugarcane crushing days and recovery of sugar from cane. Attended the Physical Inventory verification for the year ended 31st March 2025 and performed verification on test check basis at the Sugar Plants.

Information Other than the financial statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Business Responsibility Report, but does not include the financial statements and our auditor's report thereon.

Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information is expected to be made available to us after the date of this auditor's report, hence our opinion is based on Financial Statements only.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. When we read Management Discussion and Analysis, Board's Report including

Annexures to Board's Report, Corporate Governance and Business Responsibility Report, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the financial statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Management and Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(I) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in the paragraph g(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
- e) On the basis of the written representations received from the directors for the year ended March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given tous:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note D-1 to the financial statements
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
 - iv. With respect to clause (e) of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended
 - a. The management has represented that, to the best of it's knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b. Management has represented, that, to the best of it's knowledge and belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- c. Based on such audit procedures that we have considered reasonable and appropriate in the circumstances; nothing has come to their notice that has caused us believe that the representations under sub-clause (a) and (b) contain any material mis-statement.
- v. The final dividend paid by the Company, during the financial year, in respect of the previous financial year, is in accordance with section 123 of the Companies Act 2013, to the extent it applies to payment of such dividend.
- vi. " Based on our examination which included test checks, The Company has enabled the Audit trail functionality for the accounting software effective 19th February 2025. Further, during the course of audit we did not come across any instance of audit trail feature being tampered with."

In respect of proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 regarding preservation of audit trail, the Company has preserved such edit logs generated effective 19th February, 2025.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of The Ugar Sugar works Limited of even date)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub- section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of The Ugar Sugar Works Ltd (“the Company”) as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Opinion

In our opinion the company has, in all material aspects, an adequate financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively for the year ended March 31 2025 except that there is scope for improvement in certain areas which require strengthening of controls established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. We have considered these weaknesses identified in determining the nature, timing and extent of audit tests applied in our audit of the Financial Statements of the Company for the year ended March 31, 2025, and these weaknesses do not affect our opinion on the Financial Statements of the company.

Management’s Responsibility for Internal Financial Controls with reference to financial statements.

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of

internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls with reference to financial statements.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statement

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:****1. CORPORATE INFORMATION**

Incorporated on 11-09-1939, The Ugar Sugar Works Ltd. (CIN-L15421PN1939PLC006738) is one of the leading sugar factories in Karnataka. Its shares are listed on two stock exchanges BSE and NSE. The registered office of the company is located at Mahaveernagar, Sangli. The Company is engaged in manufacture and sale of sugar, industrial and potable alcohol, and generation and distribution of electricity. The Company's plants are located at Ugarkhurd in Belagavi District and at Malli-Nagarhalli Village in Kalburgi District in the state of Karnataka.

2. MATERIAL ACCOUNTING POLICIES**(a) COMPLIANCE WITH IND AS**

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015.

(b) BASIS FOR PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared on a historical cost basis, except for certain financial assets and liabilities (including derivative financial instruments) that are measured at fair value at the end of each reporting period. Historical cost is generally based on the fair value of the considerations given in exchange for goods and services.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. The principle or the most advantageous market must be accessible by the company. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participants ability to generate economic benefits by using the asset in its highest and the best use. The company uses its valuation techniques that are approximate in the circumstances and for which data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

- Level 3 inputs are unobservable inputs for the asset or liability.
- For assets and liabilities that are recognised in the financial statements on recurring basis the company determines whether transfers have occurred between the levels in the hierarchy by re-assessing categorization (based on the lowest level of input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company management determines the policies and procedures for recurring and non- recurring fair value measurement. Involvement of external valuers is decided upon annually by the company management

At each reporting date the Company's management analyses the movements in the values of the assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies.

(c) CURRENT AND NON- CURRENT CLASSIFICATION

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. An asset is treated current when it is :

- Expected to be realized or intended to be sold or consumed in normal operating cycle. The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.
- Held primarily for the purpose of trading
- Expected to be realised within twelve months (12 months) after reporting date
- Cash or Cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non – current.

A liability is current when:

- It is expected be settled in a normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settle within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non - current assets and liabilities.

The company classifies all other liabilities as non - current. The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(d) ROUNDING OF AMOUNTS

The financial statements including notes thereon are presented in Indian Rupees ("Rupees "or "Rs."), which is the Company's functional and presentation currency. All amounts disclosed in the financial statements including notes thereon have been rounded off to the nearest lakhs as per the requirement of Schedule III to the Act, unless stated otherwise.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:****(e) USE OF ESTIMATES**

In preparing the Company's financial statements in conformity with Ind AS, the Company's management is required to make estimates, judgements and assumptions that affect the application of accounting policies, the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period, the actual results could differ from those estimates. Difference between actual results and estimates are recognised in the period in which the results are known or materialized and if material, their effects are disclosed in the notes to the financial statements.

(f) PROPERTY, PLANT AND EQUIPMENT (PPE) and OTHER INTANGIBLE ASSETS:**Property, plant and equipment**

Property, plant and equipment held for use in production or supply of goods or services or for administrative purposes are stated at cost less accumulated depreciation/amortization less accumulated impairment, if any. The cost of fixed assets comprises its purchase price / manufacturing cost (in case of self-constructed asset), net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use.

Capital work-in-progress for production, supply of administrative purposes is carried at cost less accumulated impairment loss, if any, until construction and installation are complete and the asset is ready for its intended use.

Depreciation is provided (other than on capital work-in-progress) using Writtendown Value method over the estimated useful lives of assets. Depreciation on assets acquired/ purchased, sold/discarded during the year is provided on a pro-rata basis from the date of each addition till the date of sale/retirement. The estimated useful lives of assets are stated below:

Particulars	Useful Life(in years)
Building	3 to 60
Plant and Equipment	1 to 40
Furniture and Fixtures	1 to 10
Vehicles	8 to 10
Office Equipment	1 to 13
Investment Property – Building	3 to 60

The Company, based on technical assessment made by management estimate, depreciates certain items of Plant, Property and Equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. This assessment takes into account nature of assets, the estimated usage of assets, the operating conditions of the assets, past history of replacement, anticipated technological changes, maintenance history, etc. The estimated useful life is reviewed at the end of each reporting period, with effect of any change in estimate being accounted for on a prospective basis.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

Where the cost of part of the asset is significant to the total cost of the assets and the useful life of that part is different from the useful life of the remaining asset, useful life of that significant part is determined separately. Depreciation of such significant part, if any, is based on the useful life of that part.

Freehold land is not depreciated.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment, determined as the difference between the sales proceeds and the carrying amount of the asset, is recognized in the Statement of Profit or Loss.

The residual values, useful lives and methods of depreciation of property plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired, if any, in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment loss if any. Internally generated intangibles excluding capitalized development costs are not capitalized and the related expenditure is reflected in statement of profit and loss in the year in which expenditure is incurred.

Amortization is recognized on Straight Line Method basis over their estimated useful life of 3 years, which reflects the pattern in which the asset's economic benefits are consumed. The estimated useful life, the amortization method and the amortization period are reviewed at the end of each reporting period, with effect of any change in estimate being accounted for on a prospective basis.

An intangible asset is derecognized on disposal or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in the profit or loss when the asset is derecognized.

As summary of amortization policies applied to the Company's acquired intangible assets is given as under.

INVESTMENT PROPERTIES

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss if any.

The cost includes the cost of replacing parts and borrowing costs for long term construction projects if the recognition criteria are met. When significant parts of the investment properties are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the profit or loss as incurred.

The company depreciates building component of investment property over years from the date of original purchase / date of capitalisation.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property.

Investment properties are derecognised either when they have been disposed or when they are permanently withdrawn from the use and no future economic benefit is expected from their disposal. The difference between net disposal proceeds and carrying amount of the asset is recognised in the profit or loss in the period of de-recognition.

Depreciation on building is provided over its useful life as mentioned above using the written down value method as per the provisions of Schedule II to the Companies Act, 2013.

(g) LEASES

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis.

(h) IMPAIRMENT OF NON- FINANCIAL ASSETS(TANGIBLE AND INTANGIBLE)

At the end of each reporting period, the Company reviews the carrying amounts of tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of individual asset, the Company estimates the recoverable amount of the cash generating unit to which an individual asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing, value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the Statement of Profit or Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. The reversal of an impairment loss is recognized immediately in the Statement of Profit or Loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life. Impairment losses of continuing operations including impairment on inventories are recognised in the statement of profit and loss except for properties previously revalued with revaluation surplus taken to OCI. For such properties the impairment is recognised in OCI up to the amount of any previous revaluation surplus.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:****(i) INVENTORIES****Inventories are valued as follows:**

Raw materials, stores and spares, Material in transit, packing materials, crops in progress and Petroleum products

The Raw materials, stores and spares, Material in transit, packing materials and Petroleum products valued at lower of cost and net realisable value and Crops in progress valued at Fair value less cost to sale. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on Moving Weighted Average basis.

Cost comprises costs of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Molasses, molasses in process, own Bagasse and scrap are valued at net realisable value.

Finished goods

Valued at lower of cost and net realizable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods excludes excise duty. Excise duty is provided on manufacture of goods, which are not exempt from the payment of duty.

Work-in-process

Valued at lower of cost up to estimated stage of process and net realisable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

By-products

By-products are valued at net realizable value. Inter-unit transfers of by- products also include the cost of transportation, duties, etc.

(j) REVENUE RECOGNITION

Revenue recognition is based on the five step revenue recognition model.

- Identifying the contract with customer.
- Identifying the performance obligations in the contract.
- Determining the transaction price.
- Allocation of transaction price.
- Recognition of revenue when (or as) a performance obligation is satisfied.

Each distinct goods or service that an entity promises to transfer is a performance obligation.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

transaction price of goods sold and services rendered is net of variable consideration on account of discounts and schemes offered by the company as a part of the contract.

The Company adjusts the promised amount of consideration for the effects of time value of money if payment by the customer occurs either significantly before or significantly after the performance. The interest income or interest expense resulting from a significant financing component is presented separately from revenue, unless interest income represents ordinary activity.

Considering the nature of business of the entity, accounting for warranties prescribed by the standard is not applicable to the Company.

Contract modifications are accounted for as either separate or as a part of the existing contract depending on the nature of the modification.

Costs to obtain contracts and fulfil the contracts are recognised as assets. Such recognized assets are amortised over the period that the performance obligation is satisfied and are periodically reviewed for impairment. Costs Recognition is subject to the following clause fulfilment:

- Costs are directly related to a contract or specific contract and;
- Costs generate or enhance resources used in satisfying performance obligation and;
- Entity expects to recover the costs.

Income from services is recognised as they are rendered (based on agreement/arrangement with the concerned customers).

Revenue in respect of insurance / other claims, interest, subsidy, incentive, etc. is recognized only when it is reasonably certain that the ultimate collection will be made.

This Ind AS does not deal with revenue from lease contracts, insurance contracts, financial instruments and other contractual rights and obligations. It also scopes out non – monetary exchanges between entities in similar business to facilitate sale to customers or potential customers.

Interest income

Interest income from debt instruments is recognised using the effective interest rate method.

Dividends

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established.

(k) INVESTMENTS IN SUBSIDIARIES, JOINT VENTURES AND ASSOCIATES

Investments in subsidiaries, joint ventures and associates are recognised at cost as per Ind AS 27. Except where investments accounted for at cost shall be accounted for in accordance with Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations, when they are classified as held for sale.

(l) GOVERNMENT GRANTS AND ASSISTANCE

Grants and subsidies from Government are recognized when there is reasonable assurance that (i) the company will comply with the conditions attached to them and (ii) the grant/subsidy will be received.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

When the grant subsidy relates to revenue, it is recognized as income on a systematic basis on the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate. Government grants relating to the purchase of property, plant and equipment are reduced from the gross book value of property, plant and equipment.

When company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual installments. When loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as government grant. The loan or assistance is initially recognized and measured at fair value and government grant is measured as the difference between initial carrying value of the loan and proceeds received. The loan is subsequently measured as per the accounting policy applicable to financial liabilities. Currently the Company does not have any grant/assistance that qualifies for such accounting treatment.

(m) FOREIGN CURRENCIES

The financial statements are presented in Indian rupees, which is also the functional currency of the Company.

(n) INVESTMENTS

The Company has measured its investments at Cost except for following:

- (i) Investments in Mutual Fund are valued at fair market value using NAV as on 31st March 2025.
- (ii) Investment in Preference shares of Synergy Green Industries Ltd is valued at fair market value using discounted cash flows.

(o) EMPLOYEE BENEFITS**Short Term Employee Benefits**

Short-term employee benefits are recognized as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

Other Long Term Employee Benefits

The Company provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave for availment as well as encashment subject to the rules. As per the regular past practice followed by the employees, it is not expected that the entire accumulated leave shall be encashed or availed by the employees during the next twelve months and accordingly the benefit is treated as long-term defined benefit. The liability is provided for based on the number of days of unutilised leave at the Balance Sheet date on the basis of an independent actuarial valuation.

Post Employment Benefits**(i) Defined Contribution Plans**

The eligible employees of the Company are entitled to receive benefits under the Provident Fund, a defined contribution plan in which both the employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. The

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

Company is maintaining separate trust for Provident Fund and recognises such contributions made to the trust as expense of the year in which the liability is incurred.

(ii) Defined Benefit Plans

The Company has an obligation towards Gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service. Vesting occurs upon completion of five years of service. The plan is managed by a trust and the fund is invested with Life Insurance Corporation of India under its Group Gratuity Scheme. The Company makes annual contributions to Gratuity Fund and the Company recognises the liability for Gratuity benefits payable in future based on an independent actuarial valuation.

(p) BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalization. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

(q) INCOME TAX**Current income Tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or statement of profit and loss.

Deferred Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are accepted to apply when the related deferred and income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

authority. Current tax assets and tax liabilities are offset where the Company has legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(r) PROVISIONS

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

CONTINGENT LIABILITIES

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

(s) FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or liabilities on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets**Initial Recognition and measurement**

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset

However, trade receivables that do not contain a significant financing component are measured at transaction price.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:****Classification and subsequent measurement**

For the purpose of subsequent measurement, financial assets are classified in four categories :

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest ('SPPI') on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate ('EIR') method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instruments at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 Business Combinations applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable. If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Investment in equity shares, compulsorily convertible debentures and compulsory convertible preference shares of subsidiaries, associates and joint ventures have been measured at cost less impairment allowance, if any.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either:
 - a) The Company has transferred substantially all the risks and rewards of the asset, or
 - b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- b) Financial assets that are debt instruments and are measured as at FVTOCI
- c) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 Revenue from Contracts with Customers.
- d) Loan commitments which are not measured as at FVTPL
- e) Financial guarantee contracts which are not measured as at FVTPL

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or contract revenue receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the ageing of the receivables balance and historical experience. Individual trade receivables are written off when management deems them not to be collectable.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income /expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the profit and loss. The balance sheet presentation for various financial instruments is described below:

Financial assets measured as at amortised cost and contractual revenue receivables:

ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

- Loan commitments and financial guarantee contracts: ECL is presented as a provision in the balance sheet, i.e. as a liability.
- Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Financial liabilities**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and receivables: Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

De-recognition

A financial liability is de -recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:****(t) CASH AND CASH EQUIVALENTS**

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, bank overdraft, deposits held at call with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(u) EARNINGS / (LOSS) PER SHARE

Basic earnings / (loss) per share are calculated by dividing the net profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year are adjusted for any bonus shares, share splits or reverse splits issued during the year and also after the balance sheet date but before the date the financial statements are approved by the board of directors. For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, share splits or reverse splits as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date.

(v) SEGMENT REPORTING

The Company's Segment predominantly based on Sugarcane based produce and allied activities. The Operational Segments constitute of Sugar, Industrial Alcohol, Potable Alcohol, Co – Generation and Petroleum products Sale. As regards to Geographical Segments, the segments are located at Ugarkhurd and Jewargi. Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).

The Management Committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance management. Segment performance is evaluated based on profit or loss and is measured consistently with the profit and loss of financial statements.

The accounting policies adopted for segment reporting are in line with the accounting policies adopted by the Company, with the following additional policies for segment reporting:

- (i) Inter segment revenue has been accounted for based on the transaction price agreed to between segments which is primarily market led.
- (ii) Segment Revenue, Segment Expenses, Segment Assets and Segment Liabilities have been identified to segments on reasonable basis of their relationship to the operating activities of the segment from the internal reporting system.
- (iii) Gains/losses from transactions in commodity futures, which are ultimately settled net, with/without taking delivery, are recorded as 'Other revenues' under the Sugar segment.
- (iv) Revenue, Expenses, Assets and Liabilities, which relate to the enterprise as a whole and are not allocable to segments on a reasonable basis, has been included under "Unallocated".

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:****(w) RESEARCH AND DEVELOPMENT**

Research Costs are expensed as incurred. Expenditure on Research is considered as cost for valuation of inventory and expenditure related to capital asset is grouped with property plant and equipment under appropriate head and depreciation is provided at the applicable rate. The Company will recognize development expenditure as intangible assets when the company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised on a straight line basis over the period of expected future benefit from the related project, i.e., the estimated useful life. Amortisation is recognised in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

x) SUBSIDIES RECEIVED

Subsidies received towards specific fixed assets are reduced from gross book value of the concerned fixed assets. Subsidies received relating to revenue expenditure is deducted from related expense.

(y) MERGER OF ACCOUNTS

Ugar Theaters Private Limited a wholly owned subsidiary of the Ugar Sugar Works Ltd., is merged as per the scheme approved by National Company Law Tribunal (NCLT) Mumbai vide its order dated October, 20 2023 and was filed with Registrar of Companies ("RoC") in accordance with the relevant sections of the Companies Act 2013 and rules there under.

Pursuant to this order consolidated financial need not be prepared. Previous year figures include figures of the merged entity

The merger has been accounted under 'pooling of interest' method as prescribed in Appendix C of Ind AS 103 "Business Combination". Outstanding balances between Ugar Theaters and Ugar Sugar Works Limited were eliminated. All assets and liabilities have been recognised at carrying amounts except for adjustments to bring uniformity of accounting policies as required under Ind AS 103.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, which are described in Note No. C-2, the Management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that

Notes to Financial Statement for the Financial Year Ended 31st March 2025**NOTE C : CORPORATE INFORMATION, BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES:**

are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies :

The following are the critical judgements, apart from those involving estimations, that the Management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Impairment of property, plant and equipment

Determining whether property, plant and equipment are impaired requires an estimation of the value in use of the cash-generating unit. The value in use calculation requires the management to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. When the actual future cash flows are less than expected, a material impairment loss may arise.

Useful lives of property, plant and equipment

The Company reviews the estimated useful lives of property, plant and equipment at the end of each reporting period. During the current year, the management has determined that no changes are required to the useful lives of assets.

Note D: Other Information (Contd...)**13 Disclosure with respect to IND AS-19**

The Company has implemented Revised Accounting Standard - IND AS 19 on Employee Benefits and made the provisions accordingly. The disclosure as per revised IND AS-19 are produced below:

a. Gratuity

In accordance with the applicable laws, the Company provides for gratuity, a defined retirement plan (Gratuity Plan) covering all staff, workers and officers. The Gratuity Plan provides for, at retirement or termination of employment, an amount based on the respective employee's last drawn salary and the years of employment with the Company. The Company provides the gratuity benefit through annual contributions to a Gratuity Trust which in turn mainly contributes to Life Insurance Corporation of India (LIC) for this purpose. Under this plan, the settlement obligation remains with the Gratuity Trust. LIC administers the plan and determines the contribution premium required to be paid by the Trust. The Company has also obtained an independent actuarial valuation of the Trust's Assets and Liabilities, and accordingly, the difference has been provided by the Company. The gratuity liability has been paid by the Company in case of employees, who left during the current period.

Defined Contribution Plan:

Contribution to Defined Contribution Plan, recognised and charged off for the year are as under:

Employer's contribution to Superannuation Fund	42.50	32.27
Employer's contribution to Pension Scheme	132.34	139.96

14.3 Fair Value Measurement

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the Ind AS 113 – Fair Value Measurement.

Notes to Financial Statement for the Financial Year Ended 31-03-2025

NOTE D: Other Information (contd...)

14.4 Financial Risk management framework

The Company is exposed primarily to market risk, credit risk and liquidity risk which may adversely impact the fair value of its financial instruments. Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of Company.

Market Risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

Inventory Price Risk

The Company is exposed to the movement in price of principle finished product i.e. Sugar. Price of sugarcane is fixed by government. Generally, sugar production is carried out during sugarcane harvesting period from November to March. Sugar is sold throughout the year which exposes the sugar inventory to the movement in price. Company monitors the sugar price on daily basis and formulates the sales strategy to achieve maximum realisation.

Interest Rate Risk

Fluctuation in fair value or future cash flows of a financial instrument because of changes in market interest rate gives rise to interest rate risk. Almost all borrowings of Company have fixed interest rate and therefore the risk of interest rate change is not material to Company.

Credit Risk:

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Outstanding customer receivables are regularly monitored. Company maintains its cash and cash equivalents and deposits with banks having good reputation and high quality credit ratings.

In addition, the Company is exposed to credit risk in relation to deposits related to lease premises. These deposits are not past due or impaired.

Liquidity Risk:

Liquidity risk refers to the risk that Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. Company manages liquidity risk by maintaining adequate reserves, banking facilities by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Maturity of financial assets and liabilities:

The following tables analyses the Companys' financial liabilities with agreed repayment periods and companies expected maturity for its financial assets. In case of financial liabilities, the amount disclosed in the tables below are contractual undiscounted cash flows based on the earliest date on which Company can be required to pay and in case of financial assets, the table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets.
